

KX-P6100 Laser Printer for Windows

The ease of use and flexibility that Windows provides when creating a document is now available when printing your work. Specially designed for Windows users, the KX-P6100 receives its print commands directly from your computer, which ultimately benefits you. No more waiting and waiting for documents to print because this 6-page per-minute printer prints 50% faster than most other traditional entry-level printers in its class. The Panasonic KX-P6100 takes printing frustration out of the picture and gives you a better window to productivity.
